

Textures and Abstracts – an adventure for everybody.

The aim of this workshop is:

Exploring the use of different techniques and media. Contact to like-minded people having some fun together, are some of the aims. Encouraging the development of creative thinking is another.

This workshop will not be structured like others – once begun, the need of your work will most likely dictate, where it will take you.

We will create textures:

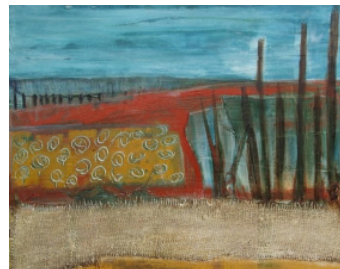

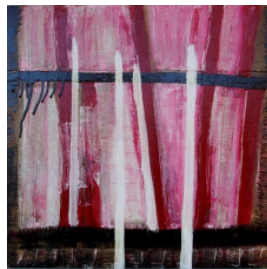

by using paper, gesso, canvas, paint, modelling paste, cardboard, textiles, tissues, or with what ever you can find (wood, tin wire etc.).

We will create abstract art work, which will make you proud because you will unleash your creativity.

Your workshop will be conducted by:

Peter Heuscher from Cooribah, well-known Sunshine Coast artist and award winning in many disciplines. See some of Peter's work on his website: www.heuscherartnoosa.com
